REQUEST FOR PROPOSAL FOR PROFESSIONAL SERVICES

TITLE: MONTAGUE PARK REHABILITATION PROJECT—COMMUNITY ENGAGEMENT, FACILITY DESIGN, ENGINEERING, AND PROJECT MANAGEMENT

1. INTRODUCTION

The City of Santa Clara is seeking proposals from qualified firms to provide professional planning, community engagement, facility design, engineering, and project management services for the Montague Park Rehabilitation Project (“Montague Park Project” or “Project”). In September 2013, City Council adopted a goal to “enhance community sports and recreational assets.” Two community meetings were held on February 25, 2015 and March 25, 2015, at Montague Park to gather community input on potential park rehabilitation (access, playgrounds, restroom, community building, pathways, parking), reorganization or expansion of park elements, and the potential to include athletic facilities in the park, given the specific project funding source available at the time. The meetings included a park site tour, journal exercises, discussion groups, and opportunities for question and answer. Based on the input from community stakeholders and the neighborhood, the City’s consultant (LPA, Inc.) developed three initial concept images for discussion purposes: Concepts “A,” “B,” and “C”. These initial concepts will be a starting point for further community input, refinement, and final project design.

In October 2016, Council allocated project funds in the amount of \$3,190,000 from Mitigation Fee Act revenues for the Montague Park Project (including all design, engineering, construction, and Project soft costs). The successful bidder will work with the Parks & Recreation Department, under the overall Project Management of the Public Works Department, to complete the community input (inclusive of neighborhood, Parks & Recreation Commission recommendation, and Council approval), building and landscape design, planning, and City’s Project Clearance Committee (PCC) review, comment and Project conditions, all necessary engineering and related sub-consultant work, Project cost estimating, and project management through construction phase of work. The Project is anticipated to be completed in an expeditious manner. A list of eligible pre-qualified Firms has been previously established and is available on the City website. A detailed description of required services for this Project is included in Attachment A-Scope of Services.

B. Background

The City of Santa Clara is seeking proposals from qualified firms to provide professional planning, community engagement, facility design, engineering and project management services for the Montague Park Rehabilitation Project (“Montague Park Project” or “Project”). In September 2013, Council adopted a goal to “enhance community sports and recreational assets.” Two community meetings were held on February 25, 2015, and March 25, 2015, at Montague Park to gather community input on potential park rehabilitation (access, playgrounds, restroom, community building, pathways, parking), reorganization or expansion of park elements and the potential to include athletic facilities in the park, given the specific project funding source available at the time. The meetings included a park site tour, journal exercises, discussion groups and opportunities for question and answer. Based on the input from community stakeholders and neighborhood, the City’s consultant (LPA, Inc.) developed three initial concept images for discussion purposes named Concepts “A,” “B”, and “C”. These initial concepts will be a starting point for further community input, refinement and final project design.

In October 2016, Council allocated project funds in the amount of \$3,190,000 from Mitigation Fee Act revenues for the Montague Park Project (including all geotechnical, survey, design, engineering, construction, and Project soft costs).
